

November 18, 2020

Dear Calibre Families,

As the COVID-19 cases have been rising, the school has made the tough decision to go back to remote learning starting November 30th. Our last day for in person instruction for the 2nd quarter will be Friday, November 20th. This decision was based on the CDC metrics, a few positive cases at our school, and the guidance of the health department.

We are hoping to come back in person January 4th, 2021 (after Winter Break). During remote learning the school will be providing learning labs for those families who do not have a place to leave their students during the day. If your student attended the learning labs at the beginning of the year they will be enrolled automatically. If you are choosing not to use them this time, please let us know by Thursday so we can assign another student to that spot. We have limited space, however, please call the office to have your student put on a waiting list if your student needs a spot.

Please be aware if you send your student to the learning lab, the staff is providing a safe environment and not classroom instruction or checking to see if the student has completed their work. Parents are highly encouraged to check their student's work and contact teachers if you have any concerns.

Email your teacher by Thursday morning (tomorrow) if your student is needing a Chromebook. Please do not take one if your student has a device they can work on at home. Students who come to the learning labs will not be issued a Chromebook.

The lunch department will be sending out information on the meal services. If you are in the learning labs and have been taking the bus, transportation will still be provided.

Thank you for your understanding and support through this difficult time!

Sincerely,

Rebeca Venegas Sharon Kaplan
Principal Vice Principal
